## **Flying: The Aviation Trilogy (Scribner Classics) Richard Bach**

Here for the first time in a single volume are three of Richard Bach's most compelling works about flight. From his edgy days as a USAF Alert pilot above Europe in an armed F84-F Thunderstreak during the Cold War to a meander across America in a 1929 biplane, Bach explores the extreme edges of the air, his airplane, and himself in glorious writing about how it feels to climb into a machine, leave the earth, and fly. Only a handful of writers have translated their experiences in the cockpit into books that have mesmerized generations.
