Savage Constructions: The Myth of African Savagery Wendy C. Hamblet

Savage Constructions challenges the popular Western assumption that violence is an essential quality of darker-skinned populations, arguing that Western imperialist projects are largely responsible for the current violences that 'rebound' in victim societies of the post-colonial world. 'Rebounding violence' expresses victim abjection and overly aggressive 'identity work' in survivors of repressive regimes after long-term exposure to denigrating myths that cast the victims as morally wanting and deserving of the abuse they suffered.
