Mendeleyev's Dream Paul Strathern

What is the world made of? The ancient Greeks speculated about earth, air, fire, and water; today we turn to the periodic table for more reliable information. The story of how we got from there to here is full of fascinating people, and in this elegant, entertaining book, Paul Strathern introduces us to ancient philosophers, medieval alchemists, and the earliest chemists—and to Dimitri Mendeleyev, the card-playing nineteenth-century Russian who claimed that the answers came to him in a dream.

"Chemistry has been a neglected area of science writing, and Mendeleyev, the king of chemistry, is a largely forgotten genius. [This book] goes a long way toward correcting this injustice." (Simon Singh, author of *Fermat's Last Theorem*, in the *Sunday Telegraph*)

Christopher Jorge:

As a student exactly feel bored to be able to reading. If their teacher inquired them to go to the library as well as to make summary for some book, they are complained. Just minor students that has reading's soul or real their interest. They just do what the trainer want, like asked to go to the library. They go to presently there but nothing reading very seriously. Any students feel that reading through is not important, boring and can't see colorful pics on there. Yeah, it is to get complicated. Book is very important in your case. As we know that on this period of time, many ways to get whatever we really wish for. Likewise word says, many ways to reach Chinese's country. Therefore this Mendeleyev's Dream can make you really feel more interested to read.
