Laser Spectroscopy: Vol. 2: Experimental Techniques

Wolfgang Demtröder

Laser Spectroscopy: Vol. 2: Experimental Techniques Wolfgang Demtröder

Keeping abreast of the latest techniques and applications, this new edition of the standard reference and graduate text on laser spectroscopy has been completely revised and expanded. While the general concept is unchanged, the new edition features a broad array of new material. This new edition has been completely revised, especially the chapters on non linear spectroscopy, ion trapping, ultra short laser pulses and new developments. Fifty new figures illustrate the newest developments and results. The author is one of the most renowned experts in this area and no other book with this broad scope is available.
