In The Soul of Place Michael Jones explores how our relationship with place aligns us with the underlying patterns of life. He does so through stories that ask: what is our experience of homecoming and how do we find our way there? What is our pattern of belonging - including our relationship with people and places - that we hold sacred? What are the conditions of regenerativity and craft that enable us to give birth to something new? How can our stewardship of what is alive within and around us awaken the mythic imagination? And how does this open a path for gathering together in a spirit of transformative celebration?
