The Nostradamus Prophecies: A modern day descendant of the famed French seer, Nostradamus, is in a race against time to decipher her ancestor's prophecies and stop the world destruction he predicted. View To A Kill (Nostradamus Prophecies #1) Every night Mari Johnson's dead brother visits in her dreams. The CIA tells her his death was a suicide, but she refuses to believe it. There's no way he'd leave her again. But if she can't trust the shadow organization that her brother worked with for answers, then she'll turn to his surprisingly sexy partner instead...the man who was with him when he died. Every night Nik Stanley relives the night he watched his best friend die. In vain, he battles the guilt that haunts him. As a member of Project Specter, a program that uses people with paranormal talents for intelligence gathering, he can't shake the feeling that he should have known that something was wrong. But when Mari and Nik join forces, the pair are thrown a little too close together, and their digging only draws the attention of powerful enemies that would do anything to keep their secrets hidden.
