Trumping the Red Queen Ralph M. Frid

"Why has the United States struggle to keep up with the rest of the world been so difficult and why have so many financial calamities originated in the U.S.? Trumping the Red Queen answers these questions as it unravels the mysteries behind creativity and learning. The reader is taken on a journey down into the Rabbit Hole of innovation. The journey reveals, in layman's terms, why so many of the ideals behind mass production and consumption perform so poorly today and why most people in the U.S. are working at a disadvantage.

The book's adventure into the Wonderland of creativity explains why small, highly-focused groups can routinely succeed in places where larger organizations flounder. It also explains why so many overseas graduates outperform the U.S. in math and science.

The trump card, a unique form of learning called Hyperstruction, is explained in ways that parents, educators and those in business can use it to regain the vitality that once was a unique trademark of the United States. Trumping the Red Queen looks at creativity from within the Rabbit Hole to shed new light on an old subject, cast a fresh perspective, and expose a unique way to survive in today's colossal economy without running everyone into the ground."
