Therapy digs deep into more than just your psyche...

Patrick has been seeing the same therapist, Gwen, for years. She's been there for him through many difficult times, helping him grow as a person and flourish when times are tough, but this time they have their work cut out for them. For as long as he can remember he's had anxiety around women's lingerie. No matter how hard he tries he can't seem to shake his nervousness around the lacy, frilly outfits and by extension, most women. Gwen digs deeper and comes up with a new way to treat his psyche, one that involves the same outfits that scare him to the core.

All that he has to do to get cured, she tells him, is to play dress up and learn what it's like to be a *real* woman. And what do you know? She's got a spare pair of lingerie *and* a toy that will teach him everything he needs to know...

Warning: This story contains forced feminization, crossdressing, prostate play, pegging, submission, and rough sex. This is not a tale for the faint of heart.
