## **Implementing ISO/IEC 17025: 2005: A Practical Guide** Bhavan ", Bob", Mehta

The purpose of this book is to demystify the requirements delineated within ISO/IEC 17025:2005 while providing a road map for organizations that wish to receive/maintain accreditation for their laboratories. AS9100, ISO 9001, and ISO 13485 are standards that support the development and implementation of effective approaches to quality management and are recognized blueprints for the establishment of a quality management system (QMS) for diverse industries. Although similar to these recognized QMS standards, ISO/IEC 17025 serves a unique purpose: laboratory accreditation. It is not unusual for laboratories to retain dual certification to ISO 9001 and ISO/IEC 17025.
