Seventeenth-Century Art and Architecture, 2nd Edition Ann Sutherland Harris

Written by a leading scholar, *Seventeenth Century Art: Architecture, 2/e* is the only text on the market that introduces students to the three major art forms—painting, sculpture and architecture, across six countries. The text engagingly and effectively combines analytical discussions with an expansive collection of vivid, illuminating illustrations that teach students the major developments of art, painting, and architecture that emerged from seventeenth-century Western Europe, as well as the socio-political and cultural background of the period.
