**"An even mix of Crichton and Clancy and written equally as well. It's a classic page-turner."**

**'You know you're reading a good thriller when you start to cast it for the movie before you've even finished.'** Eithne Hannigan, **BOOK REVIEWS, CONNEMARA LIFE** magazine.

You know you're reading a good thriller when you start to cast it for the movie before you've even finished. The plot is as complex as a Grisham novel, with twists and turns that kept me reading all night. It deals with corruption in high places and sinister secret societies and collusion between those who want more power. The characters are exceptionally well drawn and the dialogue fairly whips along. With the action moving from the elegant rooms of the White House to shootings in New York bars, car chases and mysterious cult rituals, the story catapults the reader around the United States with confidence. As the plot thickens - as they say! - paranoia battles with genuine anxiety about the U.S. government under threat from those who have a blackmailing agenda. All the ingredients for a good thriller are here. Owen MacDara is an ex-medical intern who served in Korea, now a millionaire business consultant. His previous history in the army leads him to take up a personal vendetta for the deaths - or are they murders? - of several of his former army buddies. His soulmate is the beautiful daughter of the Chairman of the Joint Chiefs of Staff upon whom MacDara had operated, in strictest confidentiality, in Korea. The subplots interweave as the protagonists' lives become affected by seemingly unrelated killings. Only MacDara begins to sense a more wide-ranging conspiracy. The details about the internal workings of the U.S. President's office and the machinations of those 'who would be king' are neatly plotted, with enough kidnappings, torture and sex to satisfy any connoisseur of the thriller genre. *It's pacey and exciting and filmic in its descriptions. Definitely a gripping read for these long winter evenings*
