What a joy it is, now that you are expecting your bundle of joy! Parenthood is a gift and an amazing one for that matter. However, one of the first challenges for most parents is finding the perfect name for their child. When it comes to naming your child, you have to absolutely be sure about the kind of name you are giving them, as you would not want your child to grow up only hating their name and even changing their name. The first step in choosing the perfect name is to look at all possible names for both boys and girls so that you can make an informed decision.

What would you do if you were given a name that you don't like? Would you want to change it or would you feel proud to introduce yourself and even explain to anyone what your name. I am confident that most of us would prefer the latter. The reasoning behind this is simple; names often determine our character and many other aspects of our life. Therefore, by choosing a nice name for your bundle of joy, you will be confident that your kid will love it when they grow up and that they would be proud of their name.

Obviously, settling for any one name is quite hard especially because a lot comes into play when you want to name your child. That's why you have to have access to as many names as possible just to help you settle on the ideal name. My book will not overwhelm you with tens of thousands of baby names. I have provided you with a comprehensive list of over 2000 baby names for your perusal as you look for that perfect name for your child. The names are listed in terms of culture and gender making it easier to choose a name especially if you are looking for a name from a cultural background. I have also included the meanings of names. This book is very clear and easy to read and is organized in an alphabetical fashion.

I hope this book will help you easily find the perfect baby name your heart desires.
