21st Century U.S. Army Field Manuals: Map Reading and Land Navigation, FM 3-25.26 (CD-ROM)

U.S. Army

This unique electronic book on CD-ROM has a complete reproduction of the U.S. Army Field Manual, Map Reading and Land Navigation, FM 3-25.26, 245 pages. In addition, as a bonus, there are reproductions of over 40 vital U.S. Army Field Manuals! The purpose of this field manual is to provide a standardized source document for Armywide reference on map reading and land navigation. This manual applies to every soldier in the Army regardless of service branch, MOS, or rank. This manual also contains both doctrine and training guidance on these subjects. Part One addresses map reading and Part Two, land navigation. The appendixes include a list of exportable training materials, a matrix of land navigation tasks, an introduction to orienteering, and a discussion of several devices that can assist the soldier in land navigation. This manual is in response to an Armywide need for a new map reading and land navigation training strategy based on updated doctrine. Institution courses are designed to prepare the soldier for a more advanced duty position in his unit. The critical soldiering skills of move, shoot, and communicate must be trained, practiced, and sustained at every level in the schools as well as in the unit. The map reading and land navigation skills taught at each level are critical to the soldiering skills of the duty position for which he is being school-trained. Therefore, they are also a prerequisite for a critical skill at a more advanced level. A soldier completing initial-entry training must be prepared to become a team member. He must be proficient in the basic map reading and dead reckoning skills. After completing the Primary Leadership Development Course (PLDC), a soldier should be ready to be a team leader. This duty position requires expertise in the skills of map reading, dead reckoning, and terrain association. Map reading and land navigation at skill level 3 requires development of problem-solving skills; for example, route selection and squad tactical movement. At skill level 4, the soldier completing the Advanced NCO Course (ANCOC) is prepared to assume the duty position of platoon sergeant or operations NCO. Planning tactical movements, developing unit sustainment, and making decisions are the important land navigation skills at this level. Officers follow similar progression. A new second lieutenant must have mastered map reading and land navigation skills, and have an aptitude for dead reckoning and terrain association. Contents include: Maps Definition, Purpose, Procurement, Security, Care, Categories, Standards of Accuracy, Marginal Information and Symbols, Topographic Map Symbols, Colors, Grids, Reference System, Geographic Coordinates, Scale and Distance, Direction, Base Lines, Azimuths, Protractor, Declination Diagram, Intersection, Resection, Modified Resection, Polar Coordinates, Overlays, Aerial Photograph Overlay, Aerial Photographs, Indexing, Film, Stereovision, Land Navigation Types of Compasses, Lensatic Compass, Field Expedient Methods, GPS, Elevation and Relief, Terrain Features, Terrain Association, Night Navigation, Mounted Land Navigation, Desert Terrain, Mountain Terrain, Jungle Terrain, Arctic Terrain, Urban Areas, Unit Sustainment, Field Sketching, Map Folding Techniques, Orienteering, M2 Compass, Foreign Maps, Glossary.
