## **Advances in non-Archimedean Analysis: 11th International Conference P-adic Functional Analysis July 5-9, 2010 Universite Blaise Pascal, Clermont-ferrand, France (Contemporary Mathematics)**

This volume contains papers based on lectures given at the Eleventh International Conference on  $p$ -adic Functional Analysis, which was held from July 5-9, 2010, in Clermont-Ferrand, France. The articles collected here feature recent developments in various areas of non-Archimedean analysis: Hilbert and Banach spaces, finite dimensional spaces, topological vector spaces and operator theory, strict topologies, spaces of continuous functions and of strictly differentiable functions, isomorphisms between Banach functions spaces, and measure and integration. Other topics discussed in this volume include  $p$ -adic differential and  $q$ -difference equations, rational and non-Archimedean analytic functions, the spectrum of some algebras of analytic functions, and maximal ideals of the ultrametric corona algebra.

**From reader reviews:**

**Donna Cook:**

Book is written, printed, or created for everything. You can recognize everything you want by a book. Book has a different type. As we know that book is important issue to bring us around the world. Beside that you can your reading proficiency was fluently. A reserve Advances in non-Archimedean Analysis: 11th International Conference P-adic Functional Analysis July 5-9, 2010 Universite Blaise Pascal, Clermont-ferrand, France (Contemporary Mathematics) will make you to become smarter. You can feel considerably more confidence if you can know about almost everything. But some of you think which open or reading any book make you bored. It is not make you fun. Why they may be thought like that? Have you trying to find best book or appropriate book with you?

**Brenda Blackmer:**

The particular book Advances in non-Archimedean Analysis: 11th International Conference P-adic Functional Analysis July 5-9, 2010 Universite Blaise Pascal, Clermont-ferrand, France (Contemporary Mathematics) has a lot of knowledge on it. So when you read this book you can get a lot of benefit. The book was compiled by the very famous author. The writer makes some research before write this book. This kind of book very easy to read you will get the point easily after reading this book.

**Rebecca Esquivel:**

Advances in non-Archimedean Analysis: 11th International Conference P-adic Functional Analysis July 5-9, 2010 Universite Blaise Pascal, Clermont-ferrand, France (Contemporary Mathematics) can be one of your nice books that are good idea. We recommend that straight away because this guide has good vocabulary which could increase your knowledge in vocab, easy to understand, bit entertaining but nonetheless delivering the information. The article writer giving his/her effort to set every word into joy arrangement in writing Advances in non-Archimedean Analysis: 11th International Conference P-adic Functional Analysis July 5-9, 2010 Universite Blaise Pascal, Clermont-ferrand, France (Contemporary Mathematics) although doesn't forget the main point, giving the reader the hottest in addition to based confirm resource information that maybe you can be considered one of it. This great information could drawn you into brand new stage of crucial pondering.

**William Hughes:**

Is it an individual who having spare time and then spend it whole day simply by watching television programs or just telling lies on the bed? Do you need something new? This Advances in non-Archimedean Analysis: 11th International Conference P-adic Functional Analysis July 5-9, 2010 Universite Blaise Pascal, Clermont-ferrand, France (Contemporary Mathematics) can be the solution, oh how comes? A fresh book you know. You are consequently out of date, spending your time by reading in this fresh era is common not a

nerd activity. So what these publications have than the others?
