Endrance was finally free to return to Ironsoul and face the accusations placed before him. He had grown as a mage and as a man, the quality of his character proving to be up to the challenges that the fires of fate had in store for him. All he had to do was return home, prove his innocence, and everything would return to normal.

But the land of Ironsoul has a different rule, and it is first and foremost the territory of his long thought to be dead mother, Valeria. Her machinations had been manipulating him wherever he turned and Endrance now has to struggle to find the conviction to break free of her game, whatever it is.

How will he know what is the right choice to make, when it looks like everyone is making the choices for him?
