Beyond Capital: Marx's Political Economy of the Working Class M. Lebowitz

Winner of The Deutscher Memorial Prize 2004. In a completely reworked edition of his classic (1991) volume, Michael A. Lebowitz explores the implications of the book on wage-labour that Marx originally intended to write. Focusing upon critical assumptions in Capital that were to be removed in Wage-Labour and upon Marx's methodology, Lebowitz stresses the one-sidedness of Marx's Capital and argues that the side of the workers, their goals and their struggles in capitalism have been ignored by a monolithic Marxism characterized by determinism, reductionism and a silence on human experience.
