International Systems in World History: Remaking the Study of International Relations Barry Buzan, Richard Little

This book tells the story of mankind's evolution from a scattering of hunter-gatherer bands to today's integrated global international political economy. Seeking to emulate and challenge the cross-disciplinary influence of the world systems model, the book recasts the study of international relations into a macro-historical perspective, shows how its core concepts work across time, and sets out a new theoretical agenda and a new intellectual role for the discipline.
